

**skiplet**

**TURN-KEY AMENITY  
FOR YOUR COMMUNITY**

Simple, effective and  
engaging parklet solutions,  
delivered Australia-wide.

Call us crazy, but  
we turn skip bins  
into parklets.

**Skiplet is an Australian owned and operated company committed to creating simple, effective and engaging parklet solutions.**

As they say, one person's trash is another person's treasure, and nothing could be more true for our product! Using a skip bin as a base, we transform "trash" into a moveable, flexible, intelligent parklets to be treasured by your community for years to come.

“looking over the coffee machine at the skippet full of happy people enjoying their coffees and sangas has made this one for the books.

besides looking amazing, it has more than doubled our outdoor dining capacity. we love our skippet – what a vibe!”

tayla & michael  
bricktown café owners

## Skiplets are currently being installed across Australia to help our clients:

- Support cafes and local businesses with additional outdoor seating
- Activate Main Streets and attract people back to local areas
- Enhance tree canopy and vegetation to assist with urban cooling
- Drive economic development and increase venue capacity for business owners
- Attract people back to our country's towns and regions to support tourism
- Pilot projects that seek to transform car parks into places for people
- Widen footpaths in response to COVID-19 safety measures

## Our design is:

### Safe

Robust design that is compliant with road safety standards and accessible to everyone

### Sustainable

using responsibly sourced, recycled, local materials

### Flexible and Modular

allowing multiple skiplets to be joined to create larger spaces

### Intelligent

equipped with the latest smart-city technology

# Our Unique Design

Our Skiplets are designed to fit within a standard car parking bay - we can even link them together to take up multiple spaces.

Using a skip bin as a base helps us to maintain compliance and safety while giving clients the flexibility to customise and create their own unique experiences.

Manufactured in Victoria using responsibly sources, recycled, local materials, our Skiplets come standard with the following features:

**1 DDA Compliant Ramp**

Linking Skiplet to the kerb for a smooth transition between footpath and allowing inclusive access.

**2 Adjustable Heights**

Jacking systems included as a standard feature to allow easy adjustments to a variety of kerb heights and locations.

**3 Surfaces**

All Skiplets come standard with timber decking and anti-slip edging to improve safety, visibility and overall compliance.

**4 Traffic Management**

All Skiplets come with built in traffic management infrastructure as standard - all set neatly within a planter box filled with natives.

**5 Reflective Signage**

Installed at each end of the Skiplet for increased visibility, particularly at night.

**6 Shade**

Skiplets come standard with multiple umbrella holders, and a canopy can be added as an extra if further protection is required.

**7 Post Holes**

At each corner of the Skiplet, holes for posts have been installed to provide added flexibility. They can be used for solar powered lighting solutions or even more signage. *Note: infrastructure (including posts) is an extra cost.*

# We're ready for Winter!

Our canopy structures help to transform Skiplets into a turn-key parklet solution for any season. Purpose-built using high-quality local materials, they are stable and secure, providing protection from all weather conditions including sun, wind and rain.

# Our Skippet Range

We have a wide variety of Skippets that can be hired or purchased and delivered anywhere in Australia within weeks:

## Café Skippet

provides additional seats for patrons while leaving room for pedestrians on the footpath, with options for signage to help retailers get noticed.

## Stage Skippet

Ready for buskers and performers to work their magic – equipped with speakers, power, lighting and even a built-in donation box.

## Inclusive Play Skippet

a compliant, inclusive play area that is designed for children of all ages and abilities.

## Urban Farm Skippet

multiple garden beds filled with delicious produce, all with educational signage to allow meaningful engagement from people of all ages.

## Recharge Skippet

seating, shade, planting, solar powered phone charging and great music is all you need to relax and recharge in this mobile public space.

## One Planet Skippet

captures carbon and rainwater, powers lights using solar power, and comes with built-in furniture made from recycled ocean plastic – all while feeding the bees and educating the community.

Number Installed	4
Businesses Supported	4
Outdoor Seats Created	40 seats plus bench standing room
Timing	Hired Nov 2020, installed Dec 2020
Status	Active

## Point Lonsdale

Every summer, the small coastal town of Point Lonsdale experiences a huge surge of holiday makers. In December 2020, 4 Skiolets were installed on the Main Street to help local businesses increase outdoor seating capacity and with it, patronage and revenue. Hired by the Borough of Queenscliff, the Skiolets have been overwhelmingly successful, with all businesses requesting they become a permanent fixture.

<b>Number Installed</b>	8
<b>Businesses Supported</b>	8
<b>Outdoor Seats Created</b>	80
<b>Timing</b>	Hired Nov 2020, installed Dec 2020
<b>Status</b>	Active

## Queenscliffe

A key tourist hub of the Bellarine Peninsula, Queenscliffe is an important local economic centre. In response to COVID, and in preparation for a busy summer period, Council invested in eight Skiolets to ensure local businesses could safely accommodate an influx of tourists – inside and outside their venues. These Skiolets successfully create parking for people – not cars – along the entire Main Street, as well as at the loved Queenscliffe General Store.

## Noble Rot Wine Bar

There's nothing like enjoying a wine with friends in the sunshine, and we created our Skiplet Wine Bar so people could do just that! By combining quality design with local compliance, we are able to help local businesses accommodate four to six additional customers per wine bar. Through a successful partnership with local business Noble Rot Wine Bar, along with the support of the Borough of Queenscliffe, Skiplet piloted our wine bars outside – accommodating 6 additional customers plus additional alfresco area. The feedback has been amazing, and additional wine bars are being rolled out across Victoria. Skiplet is proud to support amazing local businesses, and Noble Rot has been no exception!

## skiplet

<b>Client</b>	City of Kingston
<b>Location</b>	Kingston Arts Centre
<b>Skiplet Product</b>	6m Hybrid Stage / Café Skiplet
<b>Number Installed</b>	2 (joined)

<b>Outdoor Seats Created</b>	30
<b>Timing</b>	Hired Feb 2021, 6 weeks
<b>Status</b>	Active

## Kingston Arts Centre

The Kingston Arts Festival is something the local community looks forward to every year, and 2021 was no exception. As one of the first major events held since COVID began, we were proud to be a part of this great event along-side a memorable line of musicians and performers. Our Skiplets provided a 30 capacity seating area to support local businesses and retailers who popped up at the event.

<b>Outdoor Seats Created</b>	14
<b>Timing</b>	3-6 months
<b>Status</b>	Active

## Brotherhood Yiros and Grill

Skipplets are perfect for narrow streets with insufficient footpath for pedestrian movements, let alone alfresco dining. This is proven perfectly through this project snapshot of a Skipplet placed outside Brotherhood Yiros and Grill in Seddon in partnership with the City of Maribyrnong. Our 6m café Skipplet looks right at home here, with an amazing street art backdrop courtesy of famous artist Heesco.
